

Social Media Policy

Date agreed by Headteacher: September 2024

Review Date: September 2025

Purpose and Scope

This policy aims to:

- Set guidelines and rules on the use of school's social media channels
- Establish clear expectations for the way members of the school community engage with each other online
- Support the school's policies on data protection, online safety and safeguarding

Staff and parents/carers are required to read, understand and comply with this social media policy.

This policy applies to the use of social media for both business and personal purposes, whether during school/working hours or otherwise.

It applies regardless of whether the social media is accessed using:

- School IT facilities and equipment
- Equipment belonging to members of staff and pupils
- Any other IT/Internet-enabled equipment

All members of the school should bear in mind that information they share through social networking applications, even if they are on private spaces, may be subject to copyright, safeguarding and data protection legislation. Everyone must also operate in line with the school's code of conduct, equalities, harassment, child protection, safer recruitment, and online safety and ICT acceptable use policies.

The school respects privacy and understands that staff and learners may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with, or impacts on, the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy. Personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital communications with learners are also considered.

Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications.

Definition of social media

For the purposes of this document, 'social media' is considered to include all technologies that allow individuals to communicate and share information (including photos and video). This includes group messaging services such as WhatsApp.

Process for creating new accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a “Friends of the school” Facebook page. Anyone wishing to create such an account must present a business case to the headteacher which covers the following points:

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the headteacher, an account will be approved or rejected. In all cases, the headteacher must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

The school’s official social media channels are as follows:

- Wickham Church of England Primary School (Facebook Page)
- Lindsay Grimwood (Facebook Profile with School Logo Displayed)

These accounts are managed by Graham Cutter, Loren Way and Lindsay Grimwood. Staff members who have not been authorised by the headteacher to manage, or post to, the account, must not access, or attempt to access, these accounts.

If you have suggestions for something you’d like to appear on our school social media channel(s), please speak to a member of the senior leadership team.

The school may post on Facebook:

- Alerts about changes (e.g. changes to procedures, severe weather updates)

- Job vacancies or requests for volunteers

Moderation

- Comments we consider to be spam
- Personal information, such as telephone numbers, address details, etc.
- Posts that advertise commercial activity or ask for donations

Every reasonable effort will be taken to politely address concerns or behaviour of individual users, following the school's complaints policy. If users are repeatedly abusive or inappropriate, they will be blocked.

Staff responsible for our social media accounts will also ensure that all content shared on social media platforms is age appropriate for the school community.

Handling abuse

- When acting on behalf of the school, respond to harmful and / or offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of online communications, then this action must be reported using the agreed school protocols.

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- Permission to use any photos or video recordings should be sought in line with the school's digital and video images policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.
- Under no circumstances should staff share or upload learner pictures online other than via official school channels.

- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Learners should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.
- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Monitoring

School accounts will be monitored regularly and frequently. Any comments, queries or complaints made through those accounts will be responded to within 48 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Personal use of Social Media by staff

The school expects all staff (including governors and volunteers) to consider the safety of pupils and the risks (reputational and financial) to the school when using social media channels, including when doing so in a personal capacity. Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.

The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where

conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

WhatsApp groups

We expect parents/carers to follow the above social media guidelines when using class WhatsApp groups.

Monitoring and review

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.

We reserve the right to monitor, intercept and review, without further notice, staff activities using our IT resources and communications systems, including but not limited to social media postings and activities, for legitimate business purposes. This includes ascertaining and demonstrating that expected standards are being met by those using the systems, and for the detection and investigation of unauthorised use of the systems (including where this is necessary to prevent or detect crime).

The headteacher will monitor the implementation of this policy, including making sure that it is updated to reflect the needs and circumstances of the school.

This policy will be reviewed every year

The governing board is responsible for reviewing this policy.
